SUMMARY

Software Developer and 42 Lisbon graduate specializing in AI, Data and Algorithms. Experience in C/C++, Python, SQL/PostgreSQL, and full-stack web development with React, TypeScript, NestJS, and Docker.

EDUCATION

42 LISBOA Software Development (Graduated) — **Lisbon, Portugal**

- Project-based curriculum focused on C/C++, operating systems, networking, algorithms, and software engineering. — APRIL 2024 - AUG 2026

42 LISBOA AI, Data and Algorithms — **Lisbon, Portugal**

- Project-based specialization focused on data engineering, relational databases (PostgreSQL), Python and algorithms. — AUG 2026 - PRESENT

PROJECTS

Data Pipeline| Python + PostgreSQL + Docker — OCT 2026 - PRESENT

- Built a Dockerized PostgreSQL + pgAdmin setup and Python (SQLAlchemy) scripts to load about 2 GB of CSV data.
- Designed typed table schemas and merged monthly tables into a single dataset using SQL (UNION ALL).

Transcendence | React + TypeScript + NestJS — AUG 2026

- Multiplayer chess platform developed with React, TypeScript, NestJS, PostgreSQL, and Docker.
- Implemented authentication, WebSockets, matchmaking, and user profile management.

Inception | Docker / DevOps — APR 2026

- Docker, NGINX, WordPress, MariaDB.
- Configured a multi-container infrastructure with Docker Compose.

WebServer | C++ — MAR 2026

- Built a custom HTTP/1.1 web server in C++
- Implemented request parsing, routing, CGI execution, and non-blocking I/O using poll()
- Designed using OOP principles

WORK EXPERIENCE

Food Courier — **Lisbon, Portugal**
Uber Eats — 2022 - PRESENT

- Delivered orders and managed transactions accurately.

Cook — **Lisbon, Portugal**
Brazilian Burger House — 2022 - 2022

- Tracked the weekly food and beverage inventory.
- Supervised the equipment maintenance schedule.

LANGUAGES

- English (C1)
- Portuguese (Native)

SKILLS

- **Languages:** C/C++, Python, TypeScript, SQL
- **Data:** PostgreSQL, pandas, NumPy, SQLAlchemy
- **Web:** React, NestJS, Node.js
- **Tools:** Docker, Git
